State Water Resources Control Board

Division of Drinking Water

March 9, 2015

Pinon Pines Estates Mutual Water Company
Attention: Lee J. Benda, Board President
1467 Tecuya Drive
Frazier Park, CA 93225

**RE: PINON PINES ESTATES MUTUAL WATER COMPANY – WATER SYSTEM #1510054
COMPLIANCE ORDER FOR VIOLATION OF ARSENIC MCL**

Enclosed is Compliance Order No. 03-19-15R-005 that the State Water Resources Control Board-Division of Drinking Water (Division) is issuing to the Pinon Pines Estates Mutual Water Company, Inc. (hereinafter Water Company) for a violation of the California Safe Drinking Water Act. The Water Company has been serving water from Well 05 (PS Code: 1510054-004) to consumers that fails the primary maximum contaminant level (MCL) for arsenic of 0.010 milligrams-per-liter. As discussed in the compliance order, the Water Company shall develop and implement a plan to resolve the MCL violation and ensure that water served to consumers meets all drinking water standards.

Please note that on or before April 9, 2015, the Water Company is required to submit a written response to the Division indicating its agreement to comply with the directives of the compliance order and with the Corrective Action Plan addressed in the said compliance order. **On or before June 9, 2015, the Water Company is required to present the Corrective Action Plan required under Directive No. 6 of the compliance order, to the Division in person at the Division's office located at 4925 Commerce Drive, Suite 120, Bakersfield, California 93309. Deadline to achieve compliance with the arsenic MCL is March 9, 2018.** Until the Division determines that the Water Company is in compliance with the arsenic MCL, you must continue to provide quarterly public notification for arsenic and also conduct quarterly arsenic monitoring of Well 5. After providing quarterly public notification, a copy of the public notice along with a completed Certification of Public Notification form (Attachment C of the compliance order) should be submitted to the Division's Bakersfield office. **Failure to comply with deadlines and directives specified in the compliance order will result in further enforcement action by the Division.**

If you have any questions regarding this matter, please contact me at (661) 335-7318 or Carl Carlucci, Supervising Sanitary Engineer at (559) 447-3131.

Sincerely,

Jaswinder S. Dhaliwal, P.E.
Senior Sanitary Engineer, Tehachapi District
Southern California Drinking Water Field Operations Branch
DIVISION OF DRINKING WATER

**CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF DRINKING WATER**

TO: Pinon Pines Estates Mutual Water Company Water System
System No. 1510054
ATTN: Lee J. Benda, Board President
1467 Tecuya Drive
Frazier Park, CA 93225

And

Pinon Pines Estates Mutual Water Company, Inc.

**COMPLIANCE ORDER NO. 03-19-15R-005
FOR
VIOLATION OF HEALTH AND SAFETY CODE SECTION 1166555 (a)(1)
AND THE PRIMARY DRINKING WATER STANDARD FOR ARSENIC
Dated March 9, 2015**

The State Water Resources Control Board (hereinafter "Board"), acting by and through its Division of Drinking Water (hereinafter "Division") and the Deputy Director for the Division (hereinafter "Deputy Director"), hereby issues this compliance order (hereinafter "Order") pursuant to Section 116655 of the California Health and Safety Code (hereinafter "CHSC") to Pinon Pines Estates Mutual Water Company Water System and its owner of record Pinon Pines Estates Mutual Water Company, Inc. for violation of CHSC section 116555(a)(1) and Title 22, California Code of Regulations (hereinafter "CCR"), Section 64431.

APPLICABLE AUTHORITIES

CHSC, Section 116555(a)(1) states in relevant part:

(a) Any person who owns a public water system shall ensure that the system does all of the following:

(1) Complies with primary and secondary drinking water standards.

CHSC, Section 116655 states in relevant part:

(a) Whenever the department determines that any person has violated or is violating this chapter, or any permit, regulation, or standard issued or adopted pursuant to this chapter, the director may issue an order doing any of the following:

(1) Directing compliance forthwith.

(2) Directing compliance in accordance with a time schedule set by the department.

(3) Directing that appropriate preventive action be taken in the case of a threatened violation.

(b) An order issued pursuant to this section may include, but shall not be limited to, any or all of the following requirements:

(1) That the existing plant, works, or system be repaired, altered, or added to.

(2) That purification or treatment works be installed.

(3) That the source of the water supply be changed.

(4) That no additional service connection be made to the system.

(5) That the water supply, the plant, or the system be monitored.

(6) That a report on the condition and operation of the plant, works, system, or water supply be submitted to the department.

Title 22, CCR, Section 64431 (hereinafter "Section 64431"), states in relevant part:

Public water systems shall comply with the primary MCLs in table 64431-A as specified in this article.

Table 64431-A
Maximum Contaminant Levels
Inorganic Chemicals

<i>Chemical</i>	<i>Maximum Contaminant Level, mg/L</i>
Aluminum	1.
Antimony	0.006
Arsenic	0.010
Asbestos	7 MFL*
Barium	1.
<i>Chemical</i>	<i>Maximum Contaminant Level, mg/L</i>
Beryllium	0.004
Cadmium	0.005
Chromium	0.05
Cyanide	0.15
Fluoride	2.0
Hexavalent chromium	0.010
Mercury	0.002
Nickel	0.1
Nitrate (as NO ₃)	45.
Nitrate+Nitrite (sum as nitrogen)	10.
Nitrite (as nitrogen)	1.
Perchlorate	0.006
Selenium	0.05
Thallium	0.002

* MFL=million fibers per liter; MCL for fibers exceeding 10 um in length.

Title 22, CCR Section 64432 (hereinafter "Section 64432") provides in relevant part:

Section 64432

...

(g) If the level of any inorganic chemical, except for nitrate, nitrite, nitrate plus nitrite, or perchlorate, exceeds the MCL, the water supplier shall do one of the following:

(1) Inform the Department within 48 hours and monitor quarterly beginning in the next quarter after the exceedance occurred; or

(2) Inform the Department within seven days from the receipt of the analysis and, as confirmation, collect one additional sample within 14 days from receipt of the analysis. If the average of the two samples collected exceeds the MCL, this information shall be reported to the Department within 48 hours and the water supplier shall monitor quarterly beginning in the next quarter after the exceedance occurred.

1 (h) If the concentration of an inorganic chemical exceeds ten times the MCL, within
2 48 hours of receipt of the result the water supplier shall notify the Department and
3 resample as confirmation. The water supplier shall notify the Department of the
4 result(s) of the confirmation sample(s) within 24 hours of receipt of the confirmation
5 result(s).

6 (1) If the average concentration of the original and confirmation sample(s) is less than
7 or equal to ten times the MCL, the water supplier shall monitor quarterly beginning in
8 the quarter following the quarter in which the exceedance occurred.

9 (2) If the average concentration of the original and confirmation sample(s) exceeds
10 ten times the MCL, the water supplier shall, if directed by the Department;

11 (A) Immediately discontinue use of the contaminated water source; and

12 (B) Not return the source to service without written approval from the Department.

13 (i) Compliance with the MCLs shall be determined by a running annual average; if
14 any one sample would cause the annual average to exceed the MCL, the system is
15 immediately in violation. If a system takes more than one sample in a quarter, the
16 average of all the results for that quarter shall be used when calculating the running
17 annual average. If a system fails to complete four consecutive quarters of monitoring,
18 the running annual average shall be based on an average of the available data.

19 STATEMENT OF FACTS

20 Division is informed by the Water System and believes that the Pinon Pines Estates
21 Mutual Water Company Water System (hereinafter "Water System") is a privately
22 owned community water system located in Kern County that supplies water for
23 domestic purposes to approximately 725 individuals through approximately 294
24 service connections. The Water System operates under Domestic Water Supply
25 Permit No. 03-90-005, issued on March 19, 1990. The Water System is a community
26 public water system as defined in CHSC, section 116275.
27

1 The Water System utilizes five groundwater wells and (Well 02-Standby, Well 04,
2 Well 05, Well 06, and Well 07) as its source of domestic water. Title 22, CCR,
3 Division 4, Chapter 15, Article 4, establishes primary drinking water standards and
4 monitoring and reporting requirements for inorganic constituents. Community and
5 nontransient noncommunity water systems must comply with the maximum
6 contaminant level for arsenic of 0.010 mg/L, as established in Title 22 CCR Section
7 64431.
8

9
10 Samples collected from the Water System on May 18, 2009, showed arsenic
11 concentration of 0.011 mg/L in Well 05 (Primary Station Code 15100054-004).
12 Therefore, in accordance with Section 64431 (g), the Water System was required to
13 begin quarterly arsenic monitoring of Well 05, unless it chose to submit an additional
14 sample, which it did not do. Section 64431 (i) provides that compliance with the
15 arsenic MCL is based on a "running annual average" (RAA) of the quarterly
16 monitoring samples, computed each quarter. Further, Section 64431 (i) states: "if any
17 one sample would cause the annual average to exceed the MCL, the system is
18 immediately in violation."
19

20
21 A summary of Well 05's arsenic monitoring is presented in Table 1 below. All results
22 are as reported to the Division by the laboratory that performed the analysis.
23
24
25
26

Feb. 3, 2014 (1 st Qtr. 2014)	0.0083 mg/L	0.0083 mg/l	0.012 mg/L* (1st Qtr. 2014)
2 nd Qtr. 2014	No Sample	No Sample	0.012 mg/L* (2nd Qtr. 2014)
July 28, 2014 (3 rd Qtr. 2014)	0.013 mg/L	0.013 mg/L	0.013 mg/L* (3rd qtr. 2014)
Sep. 8, 2014 (3 rd Qtr. 2014)	0.0082 mg/L		
December 3, 2014 (4 th Qtr. 2014)	0.0077 mg/L	0.0077 mg/L	0.010 mg/L (4 th Qtr. 2014)
Jan. 13, 2015 (1 st Qtr. 2015)	0.0083 mg/L	0.0083 mg/L	0.010 mg/L (1 st Qtr. 2015)

1 *: Arsenic MCL violation for these quarters due to the RAA value ≥ 0.0105 mg/L

2 As shown in Table 1 above, the third quarter 2010 RAA for Well 05, calculated from
3 the fourth quarter of 2009 through the third quarter of 2009 sample results averaged
4 over a four quarter period, is 0.011 mg/L, which exceeds the arsenic MCL of 0.010
5 mg/L. Results of samples taken from water produced by Well 05 since 2010, show
6 the RAA for arsenic in said well periodically exceeds the arsenic MCL.
7

8 DETERMINATIONS

9
10 Based on the above Statement of Facts, the Division has determined that the Water
11 System has violated CHSC, Section 116555 and Section 64431 in that the water
12 produced by Well 05 during the third quarter of 2010, exceeded the arsenic MCL as
13 shown in Table 1 above, and further has determined that said violation has continued
14 from 2010 and through the date of this Order, with some exceptions.
15

16 DIRECTIVES

17 Water System is hereby directed to take the following actions:
18

- 19 1. On or before March 9, 2018, comply with Title 22, CCR, Section 64431 and remain
20 in compliance.
21
- 22 2. On or before April 9, 2015, submit a written response to the Division indicating its
23 agreement to comply with the directives of this Order and with the Corrective
24 Action Plan addressed herein.
25
26
27

- 1 3. Commencing on the date of service of this Order, provide quarterly public
2 notification in accordance with **Attachment A**, hereto, of Water System's failure to
3 meet the arsenic MCL during any calendar quarter that the four-quarter running
4 annual average exceeds the MCL.
5
- 6 4. Commencing on the date of service of this Order, submit proof of each public
7 notification conducted in compliance with Directive No. 3, herein above, within 10
8 days following each such notification, using the form provided as **Attachment B**,
9 hereto.
10
- 11 5. Commencing on the date of service of this Order collect quarterly samples for
12 arsenic from Well 05, as required by Section 64432(g), and ensure that the
13 analytical results are reported to the Division electronically by the analyzing
14 laboratory no later than the 10th day following the month in which the analysis was
15 completed.
16
- 17 6. Prepare for Division approval a Corrective Action Plan identifying improvements to
18 the water system designed to correct the water quality problem (violation of the
19 arsenic MCL) and ensure that the Water System delivers water to consumers that
20 meets primary drinking water standards. The plan shall include a time schedule
21 for completion of each of the phases of the project such as design, construction,
22 and startup, and a date as of which the Water System will be in compliance with
23 the arsenic MCL, which date shall be no later than **March 9, 2018**.
24
25
26
27

- 1 7. On or before June 9, 2015, present the Corrective Action Plan required under
2 Directive No. 6, above, to the Division in person at the Division's offices located at
3 4925 Commerce Drive, Suite 120, Bakersfield, California 93309.
4
- 5 8. Timely perform the Division approved Corrective Action Plan and each and every
6 element of said plan according to the time schedule set forth therein.
7
- 8 9. On or before September 9, 2015, and every three months thereafter, submit a
9 report to the Division in the form provided as **Attachment C**, hereto, showing
10 actions taken during the previous calendar three months to comply with the
11 Corrective Action Plan.
12
- 13 10. Not later than ten (10) days following the date of compliance with the arsenic
14 MCL, demonstrate to the Division that the water delivered by Water System
15 complies with the arsenic MCL.
16
- 17 11. Notify the Division in writing no later than five (5) days prior to the deadline for
18 performance of any Directive set forth herein if Water System anticipates it will not
19 timely meet such performance deadline.
20
21
22
23
24
25
26
27

1 All submittals required by this Order shall be addressed to:

2 Jaswinder S. Dhaliwal, Senior Sanitary Engineer
3 State Water Resources Control Board
4 Division of Drinking Water, Tehachapi District
5 4925 Commerce Drive, Suite 120
6 Bakersfield, California 93309

7 As used in this Order, the date of issuance shall be the date of this Order; and the
8 date of service shall be the date of service of this Order, personal or by certified mail,
9 on the Water System.

10 The Division reserves the right to make such modifications to this Order and/or to
11 issue such further order(s) as it may deem necessary to protect public health and
12 safety. Such modifications may be issued as amendments to this Order and shall be
13 deemed effective upon issuance.
14

15
16 Nothing in this Order relieves Water System of its obligation to meet the requirements
17 of the California SDWA, or any regulation, standard, permit or order issued
18 thereunder.
19

20 **PARTIES BOUND**

21 This Order shall apply to and be binding upon Water System, its owners,
22 shareholders, officers, directors, agents, employees, contractors, successors, and
23 assignees.
24
25
26
27

1 **SEVERABILITY**

2 The Directives of this Order are severable, and Water System shall comply with each
3 and every provision hereof, notwithstanding the effectiveness of any other provision.
4

5 **FURTHER ENFORCEMENT ACTION**

6 The California SDWA authorizes the Board to: issue a citation with assessment of
7 administrative penalties to a public water system for violation or continued violation of
8 the requirements of the California SDWA or any regulation, permit, standard, citation,
9 or order issued or adopted thereunder including, but not limited to, failure to correct a
10 violation identified in a citation or compliance order. The California SDWA also
11 authorizes the Board to take action to suspend or revoke a permit that has been
12 issued to a public water system if the public water system has violated applicable law
13 or regulations or has failed to comply with an order of the Board; and to petition the
14 superior court to take various enforcement measures against a public water system
15 that has failed to comply with an order of the Board. The Board does not waive any
16 further enforcement action by issuance of this Order.

Instructions for Tier 2 Arsenic MCL Notice Template

Template Attached

Since exceeding the arsenic maximum contaminant level (MCL) is a Tier 2 violation, you must provide public notice to persons served as soon as practical but within 30 days after you learn of the violation [California Code of Regulations Title 22, Chapter 15, Section 64463.4(b)]. **Each water system required to give public notice must submit the notice to the Department for approval prior to distribution or posting, unless otherwise directed by the Department [64463(b)].**

Notification Methods

You must use the methods summarized in the table below to deliver the notice to consumers. If you mail, post, or hand deliver, print your notice on letterhead, if available.

<i>If You Are a...</i>	<i>You Must Notify Consumers by...</i>	<i>...and By One or More of the Following Methods to Reach Persons Not Likely to be Reached by the Previous Method...</i>
Community Water System [64463.4(c)(1)]	Mail or direct delivery ^(a)	Publication in a local newspaper
		Posting in public places served by the water system or on the Internet ^(b)
		Delivery to community organizations
Non-Community Water System [64463.4(c)(2)]	Posting in conspicuous locations throughout the area served by the water system ^(b)	Publication in a local newspaper or newsletter distributed to customers
		Email message to employees or students
		Posting on the Internet or intranet ^(b)
		Direct delivery to each customer

- (a) Notice must be distributed to each customer receiving a bill including those that provide their drinking water to others (e.g., schools or school systems, apartment building owners, or large private employers), and other service connections to which water is delivered by the water system.
- (b) Notice must be posted in place for as long as the violation or occurrence continues, but in no case less than seven days.

The notice attached is appropriate for the methods described above. However, you may wish to modify it before using it for posting. If you do, you must still include all the required elements and leave the health effects and notification language in italics unchanged. This language is mandatory [64465].

Multilingual Requirement

Spanish. Each public notice must contain information in Spanish regarding (1) the importance of the notice or (2) contain a telephone number or address where Spanish-speaking residents may contact the water system to obtain a translated copy of the public notice or assistance in Spanish.

Non-English Speaking Groups Other than Spanish-Speaking. For each group that exceeds 1,000 residents or 10% of the residents in the community served, whichever is less, the public notice must (1) contain information in the appropriate language(s) regarding the importance of the notice or (2) contain a telephone number or address where such residents may contact the water system to obtain a translated copy of the notice or assistance in the appropriate language.

Population Served

Make sure it is clear who is served by your water system -- you may need to list the areas you serve.

Corrective Action

In your notice, describe corrective actions you are taking. Do not use overly technical terminology when describing treatment methods. Listed below are some steps commonly taken by water systems with chemical or radiological violations. Use one or more of the following actions, if appropriate, or develop your own:

- "We are working with [local/state agency] to evaluate the water supply and researching options to correct the problem. These options may include treating the water to remove arsenic or connecting to [system]'s water supply."
- "We have stopped using the contaminated well. We have increased pumping from other wells, and we are investigating drilling a new well."
- "We will increase the frequency at which we test the water for arsenic."
- "We have since taken samples at this location and had them tested. They show that we meet the standards."

After Issuing the Notice

Send a copy of each type of notice and a certification that you have met all the public notice requirements to the Department within ten days after you issue the notice [64469(d)]. You should also issue a follow-up notice in addition to meeting any repeat notice requirements the Department sets.

It is recommended that you notify health professionals in the area of the violation. People may call their doctors with questions about how the violation may affect their health, and the doctors should have the information they need to respond appropriately.

It is a good idea to issue a "problem corrected" notice when the violation is resolved.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

Pinon Pines Estates MWC Has Levels of Arsenic Above the Drinking Water Standard

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Based on the samples collected from _____ (____ Quarter _____) to _____ (____ Quarter _____), water produced by Well 05 contained an average of _____ ug/L (_____ milligrams per liter) of arsenic. Well 05 produces water that is above the arsenic maximum contaminant level (MCL) of 10.0 ug/L (0.010 mg/L). This standard is based upon the running annual average of the most recent quarterly arsenic monitoring.

What should I do?

- **You do not need to use an alternative water supply (e.g., bottled water).**
- This is not an emergency. If it had been, you would have been notified immediately. However, *some people who drink water containing arsenic in excess of the MCL over many years may experience skin damage or circulatory system problems, and may have an increased risk to getting cancer.*
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

Pinon Pines Estates Mutual Water Company is working with the State Water Resources Control Board, Division of Drinking Water to resolve the high arsenic problem.

For more information, please contact _____ at _____

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Pinon Pines Estates MWC.
